The Directory of Business Angel Networks compiles all business angel networks operating in Europe. It provides an outlook of the multiple organisations which, across Europe, group angel investors with a common goal: drive investment into high-growth early-stage businesses.

EBAN started collecting information on angel networks in 1999 by which time 66 networks were identified. This figure has constantly increased and has reported by the latest EBAN Statistics now reaches 468 operating networks.

Many times labelled as a grey market, the European business angel community has been not only growing but also becoming more visible. With this publication EBAN aims at shedding light over the many organisations which are today contributing to a stronger angel investment market.

The structure of the Directory of Business Angel Networks (BANs) is organised in the following order:

1. **Business Angel Networks – Summary Table**
   
   *Listing of all Business Angel Networks featured by country*

2. **Directory of Networks**

   *Extended directory comprising*

3. **Directory of Networks is a living document**

   *It will be updated thanks to the contribution of the Early Stage Investment community*

---

*EBAN would like to express its gratitude to the contribution made by its marketing assistant Maria Maio and its research assistant Noelia Gutierrez to the current publication.*

*If your organisation is not listed or in case you want to produce any change please send your request to marketing@eban.org.*
